

## TRI FLOW FREESTANDING BENCHTOP WATER COOLER

The Cooee Water Tri Flow freestanding benchtop cooler means no access to water mains is required. It is the perfect solution when you need to have a unit that is fully portable and have limited space or just need something with a smaller capacity. Great for conference rooms, events, reception areas and also suitable for home use. These units will provide you with an endless supply of filtered fresh chilled drinking water. Tap options for chilled and room temperature or hot and cold. Units are available for purchase or rental.

### HOW DOES IT WORK ?

Simply remove the lid and fill with water using the filler bottle supplied.

The tap water then passes through a 3 stage filtration process - resin, activated carbon, ceramic disc water filter cartridge.

The filtration process removes the contaminants from the water. Leaving you with an unlimited supply of great tasting filtered water from the water cooler taps.
