

RESIDENTIAL WATER FILTER SYSTEM

COOEE WATER COUNTERTOP

MODELS: CTS-PB1 / CTS-FL

Enjoy an endless supply of filtered drinking water free from chemicals and contaminants.

Simply attach the divertor valve to your existing tap at the sink.

The Cooee Water Countertop / Benchtop water filter system conveniently sits on the side of your sink or benchtop.

By using the divertor valve your tap water will then pass through the carbon block filter to provide you with an unlimited supply of clean healthy filtered water free from harmful chemicals and contaminants.

These countertop units are perfect for situations where you need to have a unit that is portable, great for when you are renting a home or don't require having a system plumbed in.

Easily installed with all the fittings and filter cartridge and instructions included.

FILTER CARTRIDGE OPTIONS AVAILABLE

Model CTS-Pb1 - includes Carbon Block PB1 0.5 micron cartridge. Removes dirt, rust, sediment, chlorine, taste, odours, lead, heavy metals, Cryptosporidium & Giardia Cysts. (NSF Rated International under NSF/ANSI Standard 42)

Model CTS-FL - includes Carbon Block Fluoride reduction cartridge. Removes dirt, rust, sediment, chlorine, taste, odours, lead, heavy metals, and reduces Fluoride by 85%.

* Filter cartridges should be replaced on average 12 monthly, our automated data base will let you know when your filters are due.

* These units should be used on a cold water supply of town water

SPECIFICATION - 33.5cm (H) x 15cm (W)

NOW AVAILABLE TO ORDER ONLINE

We have a Cooee drinking water system in our office, I always made sure I filled up my bottle before I left everyday because the water tasted so much better than my tap water at home. I got talking to Steve who comes to service and change the filters one day and he told me there are options for home as well. I bought the countertop system its great because I rent and move quite often, so I can easily take it with me.
