

RESIDENTIAL WATER FILTER SYSTEM

COOEE WATER COUNTERTOP

MODELS: CTW-PB1 / CTW-FL

Enjoy an endless supply of filtered drinking water free from chemicals and contaminants.

Simply attach the diverter valve to your existing tap at the sink.

The Cooee Water Countertop / Benchtop water filter system conveniently sits on the side of your sink or benchtop.

By using the diverter valve your tap water will then pass through the carbon block filter to provide you with an unlimited supply of clean healthy filtered water free from harmful chemicals and contaminants.

These countertop units are perfect for situations where you need to have a unit that is portable, great for when you are renting a home or don't require having a system plumbed in.

Easily installed with all the fittings and filter cartridge and instructions included.

FILTER CARTRIDGE OPTIONS AVAILABLE

Model CTW-Pb1 - includes Carbon Block PB1 0.5 micron cartridge. Removes dirt, rust, sediment, chlorine, taste, odours, lead, heavy metals, Cryptosporidium & Giardia Cysts. (NSF Rated International under NSF/ANSI Standard 42)

Model CTW-FL - includes Carbon Block Fluoride reduction cartridge. Removes dirt, rust, sediment, chlorine, taste, odours, lead, heavy metals, and reduces Fluoride by 85%.

* Filter cartridges should be replaced on average 12 monthly, our automated data base will let you know when your filters are due.

* These units should be used on a cold water supply of town water

SPECIFICATION - 30cm (H) x 15cm (W)

As a mum of three kids, one who has food allergies and suffers from eczema I am always careful and aware of what are in things that I give to them.

We used to spend a lot of money on bottled water from the supermarket. Now I have my filter from Cooee Water, I have saved money not buying cases of bottled water, and I don't have to store them. I use my filter for absolutely everything now, I use my tap water for washing the dishes. Thanks Cooee

Megan, Gold Coast
